Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

As of 04/02/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information visit: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Travel-Advisory.aspx>

On 04/21/21, the State Operations Center (SOC) changed the reporting tempo for the COVID-19 Sit Stat and Trifold Reports from daily to once a week. Updated reports can be expected every Tuesday of each week until further notice.

WEATHER KEY POINTS

06/08/21 - 06/14/21

Tuesday - Wednesday

- Elevated to critical fire weather conditions persist across much of eastern California this afternoon and evening with winds gusting to 40 mph and low humidity in place
 - Any new fires could spread quickly in these conditions
- Breezy to windy conditions also expected to many of the remaining mountains and foothills today and Wednesday, with the strongest winds (gusting 35-50 mph) likely across the central and southern Sierra on Wednesday
- Cooler temperatures continue through midweek for the majority of the state
- Scattered showers and thunderstorms expected across far northern California Tuesday night into Wednesday evening, though overall rainfall amounts will generally be light. A few storms could produce some small hail.
- Some areas of fog expected again across coastal southern California tonight through Wednesday morning

Thursday - Monday

- Warmer temperatures make a return for much of the state through the weekend and early next week
- Elevated fire weather conditions may also return Sunday and Monday with locally gusty winds over the Sierra
- Some additional light showers are possible across far northwest California Friday through the weekend, though rainfall amounts look to be less than one-tenth of an inch
